**PARTICIPANTS NEEDED FOR  
RESEARCH IN IMPROVING SOCIAL SUPPORT OF  
CAREGIVERS OF PERSONS WITH DEMENTIA**

We are looking for informal caregivers (care partners) of persons with dementia to take part in a study on a non-pharmaceutical therapeutic intervention. This remotely delivered intervention is designed to enhance interpersonal relationships within the caregiving population to improve your level of social support, social connectedness, and mental health.

As a participant in this study, you would be asked to: undergo a brief screening/intake assessment, fill out questionnaires, and attend several treatment sessions.

Your participation would involve 11-13 weekly treatment sessions, each of which is approximately 60 minutes.
